

Objective

Throughout my career, I've had the privilege of collaborating with industry-leading enterprises both domestically in Sweden and across the globe in different capacities with a high emphasis on Identity and Access Management & Microsoft collaborative suite. My role has been crucial in successful projects that change how businesses use digital identity and the ways which it is operated within the enterprises. By combining modern design with strong sense for diplomacy and communication in both Swedish as well as English, I've consistently delivered results with an impact across different cultures and markets where AI has latest years greatly accelerated my capacity and potential for faster, more accurate and better educated solutioning as addition to my already acquired experience and knowledge.

Skills

Complex hybrid and OnPrem forest architecture, Active Directory, PowerShell, Microsoft Graph, Forefront Identity Manager, **Microsoft Identity Manager, Azure Active Directory Connect, Azure Active Directory**, Azure Active Directory B2B, Azure Active Directory B2C, LDAP, Azure Active Directory Health Check, **DNS, Active Directory Federated Services, Active Directory Certificate Services**, SMTP, **Microsoft Exchange server 2013, 2016, 2019**, Microsoft Exchange Online, **Microsoft Teams**, Microsoft Teams Audio & Voice (PSTN), CI/CD, Azure DevOps, GitHub, Copilot, VMWare vSphere

Project Experience

2023 – 2024 – Financial tech, Retail industry Azure AD Consultant

Skills: Azure Active Directory, Azure Active Directory Connect, Microsoft Exchange, Microsoft Exchange Online, Microsoft Teams, Microsoft device management, Microsoft Endpoint for Enterprise

Employments & positions held

2023 – 2024	ODJAK IT Konsult AB	Owner – Infrastructure IAM Consultant
2021 – 2023	Avanade Sweden AB	Senior IT Security Consultant
Within the lines of working in the Security Consultant talent community I took more of a role focusing on Identity and Access management, mail migration and mail transport security. In addition, I had the chance to dig deep into the inner workings of Azure and Azure DevOps at one of Swedens largest banks undergoing a full digitalization project moving as good as almost all of their virtual and physical infrastructure to the cloud relying on the cloud adaption framework with an Infrastructure as Code methodology.		
2020 – 2021	Avanade Sweden AB	Senior Infrastructure Consultant
During my first 18 to 24 months at Avanade, I concentrated mainly on large-scale enterprises with complex technical or organisational challenges. These projects demanded in-depth technical expertise and a creative approach, particularly within Modern Workplace M365 or related on-premises system transformation.		
2012 – 2020	Geodis Holding Sweden	Infrastructure Specialist
As an Infrastructure Specialist, I was in a 10-person global team responsible for managing central hosting and infrastructure systems. We also provided training and expert support to local IT teams and led extensive projects within our areas of expertise.		

2010 – 2012	Chips Oy, Finland	IT Operations technician
2010	ATEA AB, Sweden	IT Consultant
2009	Internet Border Technologies AB	IT Support / Frontend Developer
2008	Försvarsmakten	Furir – Military service
2007	Ericsson	Test operator – Micro circuit production

Trainings & Education

2023	AZ-104 Microsoft Azure Administrator
